If a Sailing License is not compulsory in their country of origin they must have a Declaration from the country's authority stating that a sailing license is not required and this declaration must be on the skipper's name. However we would recommend that European citizens have one of the above certificates which are recognized in Italy.

## Charter Preparation Tips

All sailing certificates must be sent to the base and received at least 2 weeks before the start of the charter. It is essential that you take your original skippers license or certificate with you in the event that the Port Authorities ask you to present it to them. If you do not have an official sailing license, by law the team at base will not be able to allow you to charter without an officially certified skipper onboard.

## What if I do not have a license?

If you do not hold a recognized sailing license, we will assist you in finding an accredited program.
